

Features

Input Impedance:	1 MΩ
Output Impedance:	10 kΩ
Current draw:	10 mA
Power requirements:	DC 9V adapter 
Dimension (L × W × H):	73 × 43 × 50 mm
Weight:	220 g

Introduction

This Harley Benton 'Pipebomb' pedal has been specifically designed as Overdrive effects unit for guitar. Use the COMP control to set the level where the compression sets in. The ATTACK controls how fast compression is applied. Use the LEVEL control to set the signal output level and turn the MIX knob to define the ratio between dry and processed signal.

This pedal is equipped with a 'True Bypass' footswitch and a robust housing, and its high quality effects provide your musical instruments with state-of-the-art sound.

You can power this device by an external DC 9 V power adaptor with '-' pole in the centre and '+' pole on the outer connector. Disconnect the power adaptor from the mains when you don't use the device.

This device is intended to be used as a guitar effects unit. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

Ensure that plastic bags, packaging, etc. are properly disposed of and are not in the reach of babies and young children. Choking hazard! Ensure that children do not detach any small parts (e.g. knobs or the like) from the product. They could swallow the pieces and choke! Never let children use electrical devices unattended.

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.

This product is subject to the European Waste Electrical and Electronic Equipment Directive (WEEE) in its currently valid version. Do not dispose of your old device with your normal household waste. Dispose of this product through an approved waste disposal firm or through your local waste facility. Comply with the rules and regulations that apply in your country. If in doubt, consult your local waste disposal facility.
